

This house is designed around the warbler species of bird. It has a hole for the warblers to enter the innovative home. Inside of the home, as shown by the section view, there is a bird bath for the birds to clean themselves.

There is also a large loop on top of the house to enable the house to be hung from any tree branch with ease!

House size:

12 x 12 x 12 inches

Bird size:

5 x 8 x 5
